

Satellite Dish to receive overseas TV / Radio programmes

Satellite dishes that are larger than 1.2 metres in diameter installed in the Residential zone:

- Council permission required (land use resource consent) **before installation**
- Satellite dishes need to be screened from your neighbours and from the public road.
- Dishes cannot be placed on roofs, or above the eaves of the dwelling.

Satellite dishes that are larger than 1.2 metres and are installed without Council permissions (resource consent), puts the owners and/or occupiers of these residential properties at risk of Council taking legal (enforcement) action against them.

Please contact Lorraine Dunmall, District Plan Compliance Officer at the Hamilton City Council, if there are any queries.
